---

Hi Jackie / Ted:

Here's the link to the Superfund work that's been done / is being done in eastern Sandusky County, Ohio where a childhood cancer cluster was investigated by Sandusky County Health Department, Ohio Department of Health and Ohio EPA,

<http://www.epa.gov/region5/cleanup/easternsandusky/>

I also attached a summary of events that we used for a congressional briefing in May 2012 so it's a bit out of date. It does, however, give some of the background that we were involved in before Superfund began to do some additional assessments.

Maryann
